B2B projects: available immediately · full-time availability in approx. 3 months

SUMMARY

13 years of experience in PHP and Laravel. I specialize in backend design and development, REST APIs, system integrations, and modernizing production systems. Since 2018 I've been building key business applications, including **yCRM** — a license management platform — and **Demo eduSensus**. I'm also responsible for CI/CD automation, external integrations, and the long-term development of these applications.

PROFESSIONAL EXPERIENCE

Nowa Era

JAN 2018 — PRESENT

Senior PHP Developer · promoted in 2026

Gdańsk, remote · Employment contract

I develop and modernize production PHP/Laravel systems, taking ownership of architecture, integrations, and deployment automation.

- Independently designed and deployed **Demo eduSensus**, a production system handling approx. 1,000 submissions per month.
- Develop and maintain **yCRM**, a license management platform serving approx. 50,000 activated licenses.
- Modernize long-running applications by upgrading them to newer Laravel versions and developing **CI/CD** processes in Jenkins.
- Since 2026, I have also contributed to the development of an educational platform for a client in Belgium, built with **Laravel Nova**.

SELECTED PROJECTS

Detailed case studies → cv.msoftware.app

PERSONAL PROJECT · PORTFOLIO

World Cup Explorer — football statistics system with a custom REST API, MCP, and CI/CD

api.worldcupexplorer.msoftware.app · worldcupexplorer.msoftware.app

A public, production-grade full-stack application, independently designed and maintained — from architecture to deployment.

- **Backend & architecture:** Laravel 13, PostgreSQL, Redis; domain-driven architecture (DDD), a public REST API, and a custom MCP server built on the same application logic.
- **Full-stack:** frontend built with Nuxt 4 / Vue 3 / TypeScript, sharing the same production backend.
- **Production & CI/CD:** Docker, self-hosted Jenkins, and automated deployment to a VPS.

Laravel 13 PostgreSQL Redis Docker MCP Nuxt 4 Jenkins

COMMERCIAL PROJECT · BANKING SECTOR

Visitor management system — maintenance, modernization, and integrations in an enterprise environment

Production system for a banking-sector institution, integrating visitor registration and access-card management with Active Directory and the Lenel OnGuard access control system.

- **Modernization:** long-term development and modernization of the PHP/Laravel system without production downtime.
- **Integrations:** Active Directory (LDAP) and Lenel OnGuard via REST; additionally developing a RabbitMQ-based event channel that complements the existing REST integration.
- **Security:** access control, session management, and identity document validation in a banking environment.

PHP 8 Laravel MySQL LDAP / Active Directory RabbitMQ

TECHNICAL SKILLS

Bold — core stack, used daily

BACKEND

PHP · **Laravel** · Symfony · Filament

DATA & MESSAGING

MySQL · PostgreSQL · **Redis** · RabbitMQ

FRONTEND

Vue 3 · Nuxt 4 · TypeScript

EDUCATION

Polish Naval Academy, Gdynia
